@ linkedin.com/in/dipak-bhandari

Full Stack Developer with hands-on experience building scalable web applications using Laravel, React, and Inertia.js. Skilled in designing RESTful APIs, multi-tenant systems, and browser-based tools. Strong experience in integrating frontend and backend systems, optimizing workflows, and delivering production-ready features in collaborative environments.

EXPERIENCE

Full Stack Developer

Lalitpur

Dignep Group Pvt.Ltd.

Jan, 2025 - Feb, 2026

- Built and maintained multi-tenant web applications using Laravel, React, and Inertia.js
- Developed a Chromium-based browser extension for time tracking and task management
- Designed and implemented RESTful APIs for real-time data communication between extension and backend
- Implemented authentication, role-based access control, and tenant-based data isolation
- Built reusable UI components and responsive interfaces using Tailwind CSS
- Integrated frontend and backend systems for seamless workflows including form handling and API interactions
- Collaborated with designers and developers to deliver features from development to deployment

Laravel Developer Intern

Kathmandu

Dignep Group Pvt.Ltd.

Oct, 2024 - Dec, 2024

- Assisted in backend development using Laravel following MVC architecture
- Worked with Eloquent ORM, migrations, and database queries
- Supported frontend integration using React and Inertia.js
- Fixed bugs, tested features, and participated in code reviews
- Gained experience working in a production-level development environment with Git workflows

EDUCATION

Bachelor of Computer Application

Kathmandu

Madan Bhandari Memorial College

Apr, 2020 - Nov, 2025

PROJECTS

Orkest Timesheet

- Built a multi-tenant time tracking system with a Chromium extension and Laravel backend
- Designed API communication between extension and backend for real-time tracking and logging
- Implemented tenant-based architecture and scalable database design using PostgreSQL
- Developed frontend using React + Inertia.js with dynamic UI and API integration

chromewebstore.google.com/detail/orkest-timesheet/nfloafdhlidblcbapcablepdcibinfgj?hl=en-GB&

Certifyi.ai

- Integrated third-party APIs within a Next.js application
- Developed frontend UI components to support data-driven workflows
- Collaborated on integrating external services into the platform

certifyi.ai

Certifyi Trust Center

- Compliance and management dashboard
- Contributed to backend development using Laravel
- Worked on multi-tenant architecture and role-based access control
- Assisted in building dashboard UI using React and Inertia.js

- Managed structured data and permissions for compliance features

trust.certifyi.ai
