@ linkedin.com/in/dipakbhandari dipak-bhandari.com.np

Full Stack Software Developer with 1+years of professional experience engineering scalable web applications using Laravel, Inertia.js, React, Next.js, and TypeScript. Hands-on experience developing multi-tenant SaaS platforms, RESTful APIs, and Manifest V3 Chrome extensions. Proven track record in database optimization PostgreSQL, MySQL, role-based access control, and crafting responsive interfaces with TailwindCSS.

EXPERIENCE

Full Stack Developer

Lalitpur

Dignep Group Pvt.Ltd. Jan, 2025 - Feb, 2026

- Built and maintained multi-tenant web applications using Laravel, React, and Inertia.js
- Developed a Chromium-based browser extension for time tracking and task management
- Designed and implemented RESTful APIs for real-time data communication between extension and backend
- Implemented authentication, role-based access control, and tenant-based data isolation
- Built reusable UI components and responsive interfaces using Tailwind CSS
- Integrated frontend and backend systems for seamless workflows including form handling and API interactions
- Collaborated with designers and developers to deliver features from development to deployment

Laravel Developer Intern

Lalitpur

Dignep Group Pvt.Ltd. Oct, 2024 - Dec, 2024

- Assisted in backend development using Laravel following MVC architecture
- Worked with Eloquent ORM, migrations, and database queries
- Supported frontend integration using React and Inertia.js
- Fixed bugs, tested features, and participated in code reviews
- Gained experience working in a production-level development environment with Git workflows

EDUCATION

Bachelor of Computer Application

Kathmandu

Madan Bhandari Memorial College Apr, 2020 - Nov, 2025

PROJECTS

Orkest Timesheet (Multi-tenant Extension & Web App)

- Developed a Manifest V3 Chrome extension integrating automated time tracking into GitHub and Basecamp with idle detection and offline retry mechanisms.
- Injected custom timer interfaces using vanilla JS and DOM manipulation, syncing cross-tab state seamlessly via RESTful APIs.
- Built a multi-tenant Laravel/PostgreSQL backend handling organizational roles, time summary reports, and Excel exports.
- **Tech**: JavaScript, Manifest V3, Laravel, Inertia.js, React, Tailwind CSS, shadcn/ui, PostgreSQL

Certifyi - Trust Center (GRC Platform)

- Architected multi-tenant authentication using stancl/tenancy with dynamic subdomain routing and activity logging.
- Enforced granular role-based access control (RBAC) utilizing Laravel Spatie Permissions across 430+ granular permissions.
- Built a custom dynamic Form Builder for compliance assessments along with real-time notifications and email alerts.
- **Tech**: Laravel, React, TypeScript, Inertia.js, Tailwind CSS, Shadcn/UI, PostgreSQL, Stancl/Tenancy, SpatieRolePermission

Certifyi.ai

- Implemented third-party API integrations within a Next.js application.
- Developed frontend UI components to support data-driven workflows
- Collaborated on integrating external services into the platform

- **Tech**: Next.js, TypeScript, REST APIs, Tailwind CSS

Tabnix (Browser Workspace & Tab Manager) Personal project

- Architected a Chrome extension using TypeScript and Google Manifest V3 for efficient tab and workspace management.
- Integrated Google OAuth 2.0 authentication for user account sync and identity management.
- Built workspace session persistence and restoration workflows using Chrome Storage and Extension APIs.
- **Tech**: TypeScript, HTML5, CSS3, Google Manifest V3, Chrome APIs, Supabase, Google Cloud Console
